at ARUP Phase 2, 8 Fitzroy Street, W1T 4BJ

URBAN WILDLIFE CLIENT SERVICES

ANIMAL

OPEN CALL

ESTATES 2011 London Headquarters

Animal Estates is an on-going project by Fritz Haeg
Animal Estates London HQ: Urban Wildlife Client
Services opens this autumn in Arup's ground floor
gallery space Phase 2 at 8 Fitzroy St, London. This temporary
headquarters will provide a place for activists, architects, artists, city-
dwellers, designers, engineers, homeowners, and planners to research,
discuss, plan, develop, and present initiatives to accommodate native
London 'animal clients'. Projects may range from simple wood nest-
boxes that any local resident could construct and strategically install at
home, to broad master planning for urban wildlife corridors throughout
the city. The space will feature a front reception desk staffed by a full
time director with a team of interns, an open area for the evolving display
of estate prototypes, work stations about each of the 11 selected native
London species, a conference room for meetings and presentations, a
resource library, and a place to consult with local urban wildlife experts.

Native London wildlife species to welcome back into the city, which would benefit from human constructions, interventions, plantings, hosting, and accommodations:

- 8.01 Bees (multiple species)
- 8.02 Stag Beetle (Lucanus cervus)
- 8.03 Common Frog (Rana temporaria)
- 8.04 Hedgehog (Erinaceus europaeus)
- 8.05 Bats (multiple species)
- 8.06 House Sparrow (Passer domesticus)
- 8.07 Black Redstart (Phoenicurus ochruros)
- 8.08 Common Swift (Apus apus)
- 8.09 Grey Heron (Ardea cinerea)
- 8.10 Kestrel (Falco sparverius)
- 8.11 Peregrine Falcon (Falco peregrinus)
